Hanin Reda 

Highly motivated Information Technology graduate from Lebanese International University (LIU) with a perfect GPA of 4.0/4.0. Strong academic foundation in software development, databases, networking, and web technologies, complemented by hands-on experience in developing full stack web applications and AI-powered systems. Passionate about software engineering, AI integration, responsive web development, and problem solving. Eager to contribute technical expertise, creativity, and a strong work ethic to innovative projects and professional development opportunities.

Education

Lebanese International University (LIU)
Bachelor of Information Technology (IT) | 2023 – 2026

- * Graduated with a perfect GPA of 4.0/4.0.
- * Developed a strong foundation in software engineering, web development, databases, networking, and information technology.
- * Completed multiple academic and full stack development projects, including AI-powered and web-based systems.
- * Consistently recognized for academic excellence through placement on the President's Honor List and Outstanding Undergraduate Recognition Award.

Key Skills

- * Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design
 - * Backend Development: Node.js, Express.js, RESTful APIs
 - * Database Management: MySQL
 - * Programming Languages: Java, JavaScript, Python
 - * AI & Machine Learning: AI Integration, Machine Learning Fundamentals, Data Analysis using Python
 - * Tools & Technologies: GitHub, VS Code, Figma, Microsoft Office, XAMPP
 - * Networking & Security: Cisco Networking Fundamentals, Network Security, Troubleshooting
 - * Soft Skills: Problem Solving, Teamwork, Communication, Critical Thinking, Time Management, Quick Learning
-

Projects

AI-Powered Learning Management System (LearnHub)

- Developed a full stack LMS using React.js, Node.js, and MySQL.
- Implemented personalized learning roadmaps, quizzes, progress tracking, and an admin dashboard.

Imperium Hotel Booking System

- Built a full stack hotel booking platform using React.js, Node.js, and MySQL.
- Implemented room browsing, booking management, and reservation features.

World in a Cup – Coffee Menu Website

- Developed a responsive coffee menu website using React.js and Bootstrap.
- Implemented menu browsing, filtering, and mobile-friendly design.

Online Appointment Booking System (Figma Prototype)

- Designed a beauty center booking system prototype with features such as registration, scheduling, payments, notifications, and AI-assisted interactions.

Online Cosmetics Store Website

- Built an e-commerce website using HTML, CSS, JavaScript, and PHP.
- Implemented product browsing, shopping cart, and checkout functionality.

Machine Learning Project (Python)

- Developed and evaluated machine learning models using Python.
- Performed data preprocessing and model performance analysis.

Certifications & Awards

From Cisco Network Academy:

- Certificate Introduction to Networks
- Certificate Network Security
- Certificate Switching, Routing, and Wireless Essentials

From LIU:

- Certificate fall 2023-2024 president's honor list
- Certificate spring 2023-2024 president's honor list
- Certificate fall 2024-2025 president's honor list
- Certificate spring 2024-2025 president's outstanding undergraduate recognition award
- Certificate fall 2025-2026 president's outstanding undergraduate recognition award

Achievements

- Graduated with a perfect GPA of 4.0/4.0.
- Consistently recognized for academic excellence through multiple President's Honor List awards.
- Successfully developed multiple full stack and AI-powered projects during undergraduate studies.
